Robert Hannah BSc (Kinesiology), PGA of Canada Teaching Professional

Rob Hannah has been a PGA of Canada member for over 25 years and a full time Teaching Professional for the past fifteen years. He has helped thousands of golfers prioritize the key technical skills that lead to improvement. As with many sports, technology is changing the feedback information received by participants. It is more important than ever to have a coach to clear up misconceptions, and provide clear instruction and guidance utilizing a proven teaching style.

Rob has added a new dimension to his teaching with the **Foresight GC2 Launch Monitor**. As well, the **K^{VEST}** 3D motion analysis system and Hudl Technique video analysis tool assist in creating awareness of swing tendencies and enhance learning. While new technologies assist in the learning process it is vital that the coach has the ability to evaluate the many components that contribute to a golfer's performance level such as fitness, short game skills, and practice strategies.

Rob continues to study the many factors that contribute to a golfer's improvement and in the process has become a Titleist Performance Institute Certified Golf Fitness Instructor. Develop your game under the guidance of a Professional with the background and experience required to assist with all facets of the game.
