**Robert Hannah BSc (Kinesiology)  
PGA of Canada Teaching Professional  
Director of Instruction  
Rebel Creek Golf Club**

Rob Hannah has been a PGA of Canada member for 30 years and a full time Teaching Professional for the past twenty years. He has helped thousands of golfers prioritize the key technical skills that lead to improvement. As with many sports, technology is changing the feedback information received by participants. It is more important than ever to have a coach to clear up misconceptions and provide clear instruction and guidance utilizing a proven teaching style. Following lessons when appropriate, students will receive, by email, a voiced over video review of their swing analysis and lesson summary.

**Coaching sessions at Bunkers Indoor Golf at Dundee Country Club will utilize Foresight Sports advanced golf performance software for ball and club tracking.** As well, the **enform** video analysis tool assists in creating awareness of swing tendencies and enhances learning. While new technologies assist in the learning process it is vital that the coach has the ability to evaluate the many components that contribute to a golfer's performance level such as fitness, short game skills, and practice strategies.

Rob continues to study the many factors that contribute to a golfer's improvement and in the process has become a Titleist Performance Institute Certified Golf Fitness Instructor. Develop your game under the guidance of a Professional with the background and experience required to assist with all facets of the game.

---
